on the floor and eat on their laps for want of accommodations in an overcrowded and unsanitary firetrap.

The relief offered by the present bill has the following objections:

First. The site upon which they propose to erect nearly a million dollars' worth of buildings is totally unfit. It adjoins Hillsdale, a negro settlement, and its surroundings are such as to make it undesirable for a prison, less more for an eleemosynary institution. It is false economy to use it because the government owns it.

Second. It would divide the asylum. A public thoroughfare, with electric roads runs through the very center of the institution as now propesed, which is sufficient to render it impracticable. Running, as stated, through the center of the institution. Nichols avenue would necessarily be thronged with the insane inmates.

Third. Congress Heights beyond would practically be killed, because its only access to the city would be through the center of the learn of the conter of the insane asylum grounds, and the traveling public would necessarily be thrown with the insane while traveling thrown with the insane while traveling this thoroughfare, and the inmates' lives would be endangered by the electric cars and other vehicles.

We recommend no site for the new buildings, but to erect them on the proposed site would be a national diagrace.

sp25-w&s,281,14 LAND OWNERSHIP IN COREA. Rights in the Exclusive Japanese Settlements Defined.

The question of the right of non-Japanese o own land in the exclusive Japanese settlements in Corea has been a subject of interest to Americans, as land so situated is often very valuable for business purposes, since Japanese settlements usually occupy the most favorable sites at these ports. Americans must occasionally come into possession of such property through the foreclosure of mortgage, and if it can be dis-posed of to Japanese only its value is less-THE WEEMS STEAMBOAT CO.

posed of to Japanese only its value is less-ened. In response to inquiries on the sub-ject Consul General Alien at Seoul has se-cured from the Japanese government, through Minister Buck of Tokyo, the follow-ing expressions:

"In reference to the above it is to be stated that the exclusive Japanese settle-ments in Corea have no relation whatever with the new treaties; that the rights relat-ing to land in the Japanese settlements cre-ated by the treaty between Japan and ing to land in the Japanese settlements created by the treaty between Japan and Corea are of a different nature from the rights in real property established by the laws of the empire; and that consequently they are of an entirely different nature from the rights in real property which are enjoyed by the United States citizens residing in Japan; and that for these reasons it is not possible for the United States citizens to enjoy rights in real property in the exclusive Japanese settlements in Corea by virtue of the stipulations of the treaty between Japan and the United States."

Which was further explained to mean that—
"The concession confined the holding of property in that settlement to Japanese alone; foreigners could not buy or in any way hold title to any piece of property within the settlement, though an American or other foreigner could take a mortgage on such property; but in enforcing a lien for non-payment of a debt, the property would be sold only at auction and only a Japanese could buy it in; and that these conditions in respect to the Japanese settlement were different from those of other foreign settlements, except in the Chinese concession."
